

IQUA MINI UFO

Bluetooth® Portable Handsfree – Iqua miniUFO

Iqua miniUFO is a portable, lightweight and mini-sized handsfree device with elegant design. It provides a clean wireless audio connection with your Bluetooth mobile phone or PDA. With today's concerns about driving safety and user convenience, the product is designed to be easy to use with four simple operation buttons. With the mounting accessories included in the sales package, the product can be easily installed on the sun visor or dashboard of your car. In addition, it is excellent for use as a table-top handsfree at home and in the office. It can also be used with a Bluetooth-enabled PC with suitable software to make voice calls over the Internet (VoIP).

Key Features

- Voice dialing and user friendly operation keys ideal for car drivers to make and receive calls
- Compatible with most Bluetooth-enabled devices such as cellular phones, PDAs, and computer
- Low power consumption, up to 10 hours talk time and up to 450 hours standby time with the internal battery
- High voice quality ensured by cutting-edge noise suppression and echo cancellation technology
- Support Call Waiting and Conference functions
- Voice security ensured by using 128-bit encryption
- Easy-to-mount with sun visor clip or mounting plate with double-sided sticker
